

ANN-SOFI JÖNSSON

FRONTEND DEVELOPER

PERSONAL PROFILE

I am a frontend developer with experience in retail, writing and running. For me, programming is about three things: Creativity, Structure and Curiosity!

I have always been creative and like coming up with ideas and making things from scratch. It could be everything from a serious article to a funny poem for a friend's birthday. At the same time, I am an organized person who likes to have my ducks in a row.
